

## Seismic Bracing to Walls for Typical Track Lighting Systems

### Contact Us

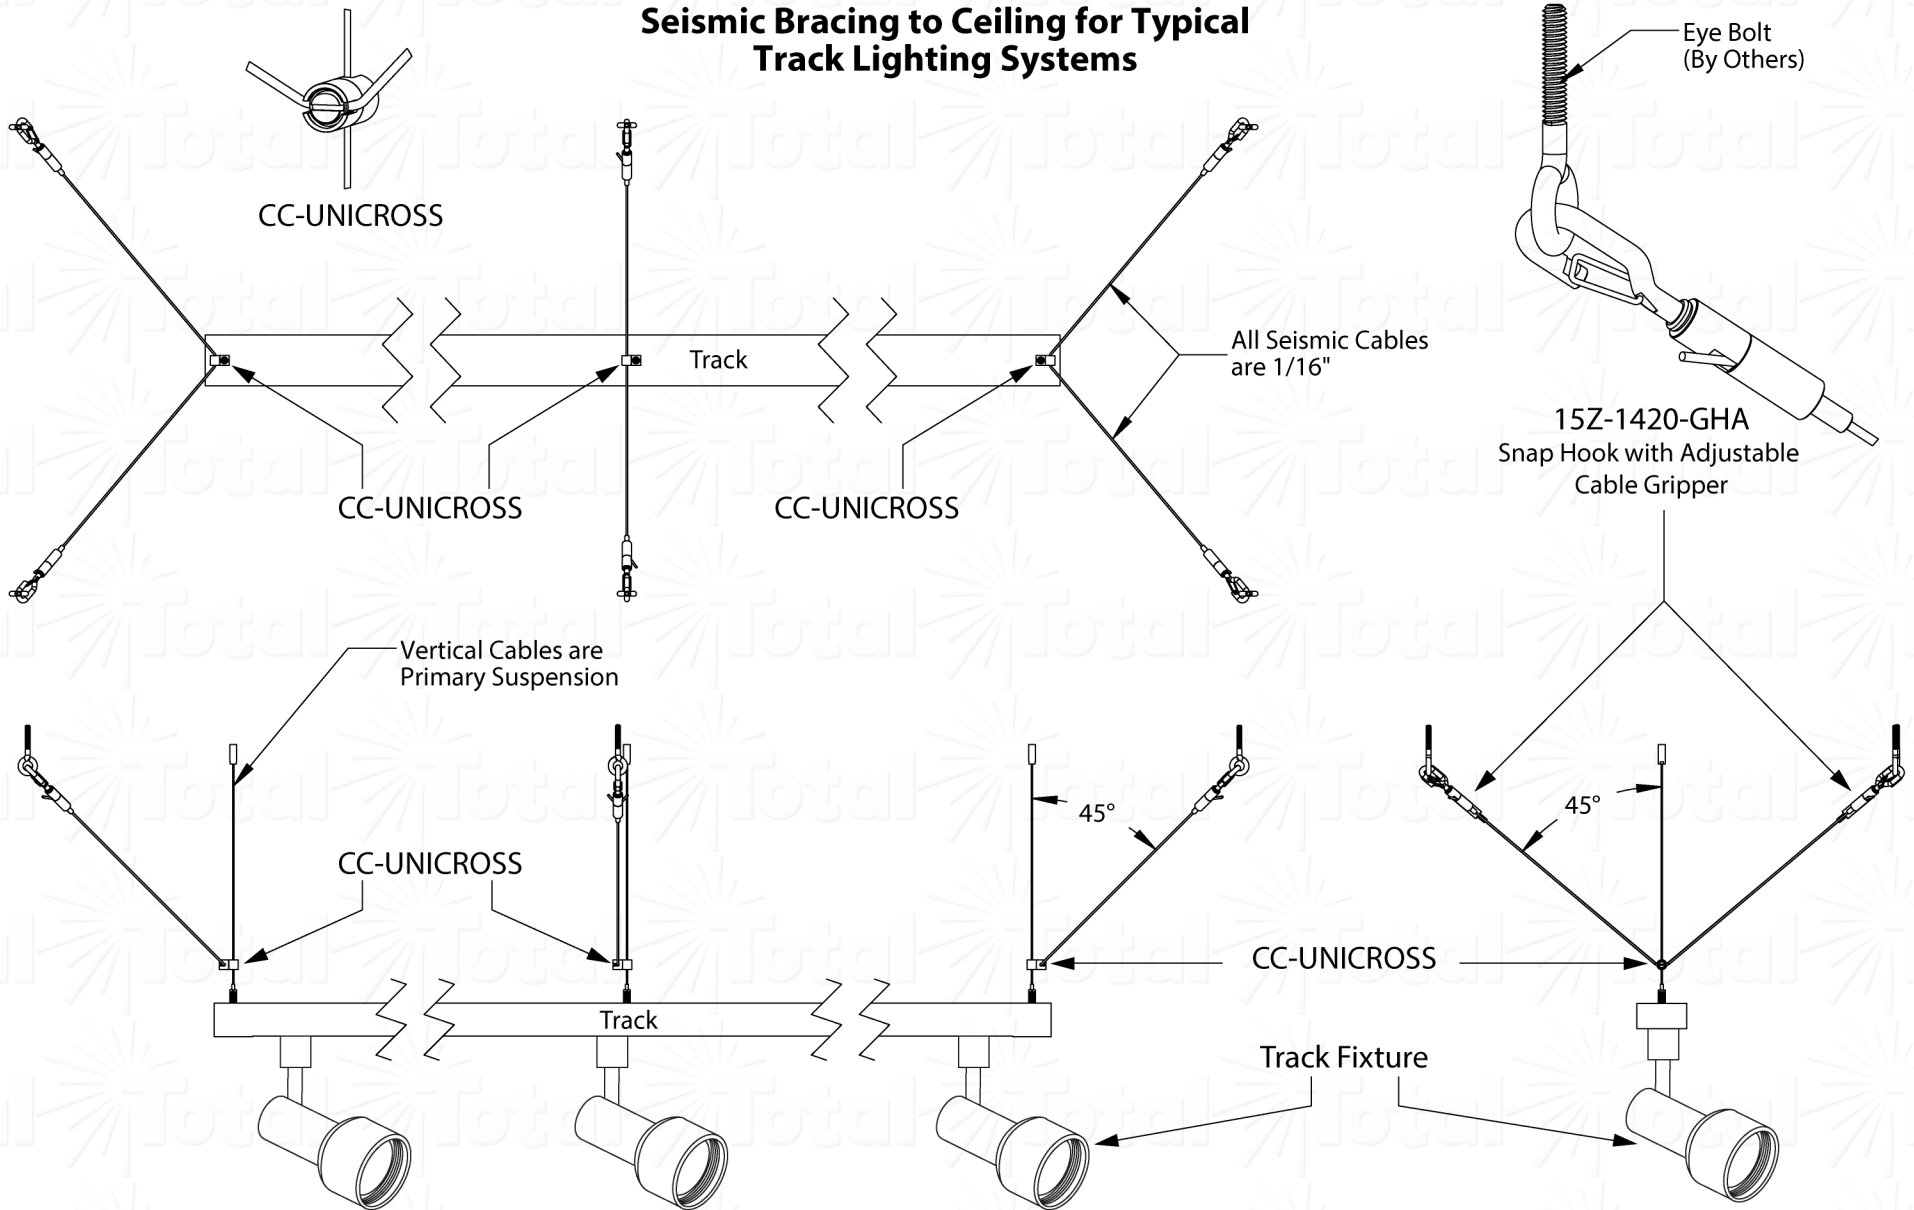

**Email:**  
Design@TotalLightingSupply.com

**Phone:**  
(847) 868-2512

Although regions that require seismic bracing for track lighting do not exactly specify the requirements. We suggest that you review these drawings with both your electrician and building inspector before you order. As of this time we have not had a problem with inspection of any of our systems but it is always good to check in advance.

## Seismic Bracing to Ceiling for Typical Track Lighting Systems
